VICTORIA, B. C. FRIDAY, OCTOBER 24, 1902.

FORTY-FOURTH YEAR

YOUR EYES

Are your best friends, yet what friend would you treat so badly? You over strain and over work them, and when they ask for help, like as not you refuse it. Those sick headaches, that neuralgia, sleeplessness, nausea, dizziness, those nerves all out of tune, is in all likelihood due to over strained eyes.

Neglect means impaired vision, it may mean worse. Probably you only need glasses for reading or working, or just for street wear. Our Optician can tell you. No case is too difficult, no case is too simple for him.

LACROSSE PLAYER DEAD.

Port Hope, Ont., Oct. 23.—(Special.)—Frank McLean, son of Colonel McLean, died today of peritonitis which resulted from injuries received in a lacrosse match played at Millbrook a week ago.

Engineers Not Agreed

Another Great Strike Is Threatened If They Are Not Reinstated.

President Morton Demands the Same Treatment As the Miners Receive.

Price of Coal Will Be Slightly Advanced by the Operators.

Wilkesbarre, Pa., Oct. 23.—The resumption of mining throughout the anthracite region was not as general today as was expected. Unlooked-for difficulties were encountered in the shape of water and accumulated gas and dangerous roofs, which threatened to fall and entomb the workers, were also discovered in many of the collieries. The mine superintendents would take no chances and the mining of coal was put off until all parts of the underground workings can be made safe. This will take a few days yet, and in some cases it will take weeks before the mines can be put in full operation. Although work was carried on in some mines which are not considered in the best conditions, no accident was reported for today. In quite a few of the collieries, the machinery and everything else connected with the hoisting of coal acted badly, and it was found necessary to close down after steam had been raised, and the miners were ready to go to work. From reports received from the entire anthracite region, the number of mines in operation is given as a little less than two-thirds of the total number, but the output of coal was less than half the normal.

The Delaware, Lackawanna & Western Company took the lead in the production. Their collieries are in better shape than the mines operated by the other large companies. An increase of at least 20 per cent. in the output may be looked for tomorrow. About one-half the mines of the Delaware & Hudson Company are working and the output of these in operation is about one-half the normal. The Lehigh Valley Coal Company operated about one-half of its mines with a full force of men. The Lehigh & Wilkesbarre Coal Company mined coal in several of its mines, but all of its collieries will not be in condition to resume before Monday. The Kingston Coal Company started up two of its collieries. The other two will start Monday. The Pariah Company will not resume until Monday.

As was to be expected there was more or less dissatisfaction among the old employees over the re-opening of the mines. When it was decided not to resume work for a few days the men took it that the coal companies did not want their services and many complaints reached Mr. Mitchell's headquarters. But as the day went on the truth slowly became known and there was a better feeling all around. President Mitchell expects that when all the mines get in operation there will be less complaints. Until all the collieries are resumed there will be more or less men airing their discontent.

It looks as though the union engineers were going to have some difficulty getting back their old places. At nearly every mine where the striking engineers made application for their old jobs they were told that there were no vacancies. A large number of carpenters are also out in the cold.

A delegation of carpenters waited upon President Mitchell today and laid out him of their grievances. The chief of the miners' union advised his callers to wait a few days and see if employment would not be offered them. The firemen are being taken back in larger numbers than any of the other steam men. That is because they are experienced and they take the places of men who are not so capable. The only friction reported between the union and non-union men was at several collieries in the Wyoming region, where the miners objected to being lowered into the mines by non-union engineers.

President Mitchell was busy at headquarters today in getting the miners' case in shape for presentation to the arbitration board. Great preparations are now under way for the celebration of Mitchell's birthday on October 29. Mitchell's birthday is celebrated by the National Board of Firemen. Fallon has charge of all the arrangements. He will be the chief marshal of the parade, which promises to be the largest demonstration of miners ever held in the coal regions.

Scranton, Pa., Oct. 23.—The non-union men were scarce around the collieries this morning, due to their declarations that the companies did not desire the men who had worked during the strike, but with the stockade living quarters gone and the almost impossible task of securing boarding houses confronting them the imported non-union men were left with no alternative. At least half the collieries practically for forces of men were put to work. At all except a few, a portion of the men were sent in. Falls of roof which blocked roadways, were responsible in many cases for only a part of the force being re-employed.

Chicago, Ill., Oct. 23.—President Morton, of the International Association of Stationary Engineers and Firemen, stated today that all members of the association have agreed to refuse to handle anthracite coal until every member affected by the anthracite strike is reinstated on the basis on which the miners returned to work.

The Brotherhood of Locomotive Engineers and Firemen, which has local unions in 14 towns and cities, including Chicago, New York, Boston, Philadelphia, Cincinnati, Cleveland, Baltimore, St. Louis, Kansas City, Denver and San Francisco, President Morton declares that his organization is in a position to shut hard coal out of all cities where it has local unions, and such action will be taken, if necessary, for the protection of members of the union who have lost their positions on account of the anthracite strike. This is President Morton's view of the situation: "According to all reports from the Eastern mines, our men are getting the worst of it, and while the miners are being reinstated, they are left out in the cold." We have supported the miners in every manner during the strike, and believe the action of the firemen and engineers in quitting work, helped materially to win the fight. Although it is true a majority of the firemen are members of the miners' union, because they were forced into that organization, they have retained their membership in our union, and have already asked for our assistance. We propose to give it to them, and I am going to call a meeting of the executive board, when action will be taken, looking to that end."

Philadelphia, Oct. 23.—In view of the resumption of mining of anthracite coal, the Philadelphia & Reading Railroad company tonight issued the following statement: The Philadelphia & Reading Coal & Iron company, President's office, Philadelphia, October 23, 1902: Mr. C. B. Henderson, General Manager, Dear Sir:—The reports that the superintendents in charge of the mines show that as a result of the strike, the mines and mining plants have sustained considerable injury, and their respective working organizations have been impaired. For some time to come the collieries cannot be worked to produce their average quantity of coal. This will increase the cost of production. Estimates have been submitted showing the possible increase in cost per ton at the several groups of collieries. The general average exceeds 50 cents per ton. You will, therefore, add to the circular price 50 cents per ton, this additional price to continue until the 1st of January, 1903, by which time we hope to reach a normal condition of mining and production. Notwithstanding the fact that during the strike no coal was sold by our company at an advance over the circular price, the price has been unreasonably advanced to the public by some retail dealers. In the distribution of the coal, therefore, you will see that the price is advanced to the public at reasonable prices. Where dealers seek to obtain an unfair profit from the public, we will promptly take steps to supply the reasonable demands of the public directly.

Yours truly,
GEO. F. BAIRD, President.

In pursuance of these instructions contained in the above, circulars have been issued taking effect October 24. An effort will be made to arrange the distribution of coal so that those in need may at least receive a small portion of their wants, and with this purpose in view dealers will be requested to restrict the amount of coal which, for the present, be sold to any consumer within the limits of his reasonable immediate requirements. The opinion is expressed by Mr. Henderson that the prices for egg stock and chestnut coal delivered to householders in the city of Philadelphia should not in any way exceed \$6.75.

On the other hand, some think that Mr. Broderick is sure of the public works portfolio, and that Mr. Prefontaine will be his successor as Speaker.

Every day brings more details of the cabinet difficulties which faced Sir Wilfrid Laurier. It is known that some weeks past Mr. Tarte had been practically boycotted by those of his colleagues who were in Canada.

Recommendations to counsel sent by the Minister of Public Works were hung up. Ministers were busy in the field of controversy after the first crack at Mr. Tarte by Mr. Sifton. The Toronto Globe was called off and then the protesting ministers began to devise drastic measures to get rid of their recalcitrant colleague. The upshot was that when Sir Wilfrid boarded the train at Rimouski five resignations were tendered to him with the intimation that they must be accepted unless Mr. Tarte were dismissed. The five were Messrs. Sifton, Mulock, Fisher, Templeman and Patterson. Mr. Templeman had been communicated with by Mr. Sifton and fell into line with his Western leader. Mr. Patterson had some protectionist qualms of conscience at first, but eventually fell in with the others. The outcome of the matter is known to the public.

Montreal, Oct. 23.—(Special.)—In conversation last evening a prominent manufacturer made the significant statement that Hon. J. L. Tarte, late minister of public works, had been a syndicate backed by the Manufacturers' Association for the purpose of securing control of newspapers in all parts of Canada, and through them endeavoring to educate people to a high protective tariff. As far as possible former Liberal journals will be secured. The papers mentioned by the manufacturers were the St. John (N.B.) Gazette, the Quebec Mercury, La Patrie of Montreal, Ottawa Free Press, Belleville Ontario, Toronto News and a paper in Vancouver paper.

JUDGE DUGAS.

In Montreal on Leave of Absence.

Montreal, Oct. 23.—Judge Dugas, of the Yukon, is in the city on legal business, in which he is interested. He is on a five month's vacation, and arrived here last night from California.

STRIKE ENDED.

Dunkirk Men Will Return to Work Today.

Paris, Oct. 23.—In the Chamber of Deputies today the Premier read two dispatches which he had just received from the under prefect of Dunkirk. The first message related to yesterday's disorder there, and the second reported that the strike was ended, and that work would be resumed tomorrow as the workmen and their employers had come to complete agreement. The reading of this second message was greeted with enthusiasm from all parts of the house. Immediately after the following order of the day was accepted by the government and adopted by 375 votes to 164: "The Chamber of Deputies, taking into account the declaration of the president of the council that he will press in parliament the discussion and vote on the reforms interesting to the miners and confiding in his business and wisdom to protect the liberty of work and the free exercise of the right to strike, invites the president of the council to use all his influence to cause both parties to accept arbitration."

Another Irish Day

Nationalists Do Their Best to Obstruct the Proceedings of House.

And Member For Belfast Denies Charges Made by Mr. Devlin.

The Closure Is Applied and Education Bill Discussion Resumed.

London, Oct. 23.—Another scene was caused by the Irish Nationalists in the House of Commons today. The Nationalists' Nationalist Chief Secretary for Ireland, Mr. Wyndham, with a kind of relevant and irrelevant questions, and when the Speaker barred further attack in this direction, the Nationalists moved an adjournment of the House in order to discuss some triviality which happened during the last session. When the Speaker ruled the motion out of order great disorder followed. Nationalist after Nationalist sprang to his feet and violently challenged the Speaker's ruling. William Redmond was specially prominent in this, and insisting on arguing with the Speaker he was egged on by frantic cheers and shouts from the Nationalists' benches. Finally Mr. Devlin obtained leave to move the adjournment of the House to discuss certain rioting in Belfast on October 19.

Premier Balfour declined to change his attitude regarding granting a day for Patrick O'Brien's resolution of yesterday that a day be granted for a debate on the state of Ireland. The Liberal Unionists, however, declined to support it as a vote of censure against the government.

The evening session of the House developed into a description between the Irish Catholic members and Thos. Sloan the new Protestant member from South Belfast. There was much cheering and counter cheering.

In moving the adjournment of the House to discuss the Belfast rioting, Mr. Devlin, while disclaiming any motives of religious bigotry, attacked the Irish executive for permitting disorderly Sunday meetings on the steps of the Belfast custom house, during the course of which he charged that blasphemers insulted the Catholic community, and fomented infamous attacks on certain protestants. Mr. Devlin said that the result of the Belfast election, however, had served to frighten the Irish supporters of the government.

Mr. Sloan, in his maiden speech before the House, replied that there had been more rowdiness in the House of Commons in the past week than he had seen on the steps of the custom house at Belfast. He said that none of the speakers at the latter place was ever in jail for boycotting and intimidation, for the simple reason that they were all loyal subjects, who did not believe in such conduct.

Mr. Wyndham praised what he characterized the success of Mr. Sloan's first appearance, and denied that there had been any rioting at Belfast on October 19.

Wm. Redmond then rose to speak, but Premier Balfour moved the closure, which was carried by 188 to 125 votes. Mr. Devlin's motion was defeated by 27 votes to 98. The House then resumed the discussion of the Education bill.

On the other hand, some think that Mr. Broderick is sure of the public works portfolio, and that Mr. Prefontaine will be his successor as Speaker.

Every day brings more details of the cabinet difficulties which faced Sir Wilfrid Laurier. It is known that some weeks past Mr. Tarte had been practically boycotted by those of his colleagues who were in Canada.

FRENCH STRIKES.

Cavalry Used Against Mob at Dunkirk.

Paris, Oct. 23.—Advices from Dunkirk says the strikers sacked the residence of a municipal councillor, who is a large dealer in coal, and then set fire to it. The man's neighbors afterwards extinguished the flames. A detachment of cavalry was obliged to repeatedly charge the strikers, who resisted with stones. Several men were injured on both sides.

Dunkirk, France, Oct. 23.—The strikers invaded the law courts today and interrupted business there. They were charged repeatedly by cavalry on the square in front of the law courts. The rioters assailed the soldiers with bricks and scrap iron. A lieutenant of cavalry and all the commissaries of police were wounded. Two additional regiments of infantry have arrived here.

MINES WORKING.

Sixty-Seven Per Cent. in Coal Region Reopen.

Wilkesbarre, Pa., Oct. 23.—Reports from the entire anthracite region show that about 67 per cent. of the mines are operating today. The collieries in the Lackawanna region are in better shape than those in any other part of the anthracite fields. The collieries in the Wyoming region, with a small output, are in good shape, being free from gas and water, but the large mines are still hampered by water. The conditions prevail in the Lehigh region in the Schuylkill region, the large mines are reported as in better condition than was expected. All the mines in operation will be short in their normal output today, but tomorrow it is expected almost the full output will be reached. After such a long spell of idleness the miners and laborers are "soft" and not capable of doing as hard a day's work as when they were "seasoned."

SWAYNE'S POLICE SAME.

News From Somaliland Is More Satisfactory.

London, Oct. 23.—A message received at the Foreign Office today from General Manning, dated Berbera, capital of Somaliland, British East Africa, announces that the force commanded by Colonel Swayne, which was threatened with destruction by the army commanded by the Mad Mullah, has reached Boletie in safety.

General Manning adds: "Colonel Swayne's force was attacked during its retirement, the situation consequently is more satisfactory, but do not cancel the orders warning a Panjab regiment to be in readiness in case it is wanted, as further developments must be awaited."

"The wounded are all doing well, and no anxiety concerning the wounded officer is felt. The Aden detachment is expected today, and will go forward tomorrow."

The news from Somaliland caused great satisfaction here and relieved the keen anxiety felt as to the fate of the British expedition. General Manning's message was promptly forwarded to King Edward.

Sinala, India, Oct. 23.—Besides the Second Bombay Grenadier and the Bombay Infantry Regiment sailing for Somaliland today, a native field hospital will sail for the same destination on Saturday. The both Baluchis have also been warned to be ready.

SUMMARY JUSTICE.

Judge Harlan Takes Part in College Scrap.

Washington, D. C., Oct. 23.—Justice Harlan, of the United States Supreme Court, who is a member of the faculty of the Columbia University Law School in this city, last night intervened and prevented a class fight between the freshmen and sophomores. Justice Harlan is a giant of stature and although 60 years of age, he is vigorous and active, going being one of his daily exercises. The youngsters were no match for him when he entered the arena. The anticipated contest was the result of the announcement of the freshmen class that it would hold its first meeting last night in jurisprudence hall. This announcement acted as a suggestive challenge to the sophomores to break up the meeting if possible. After the regular lecture of the evening the first year men undertook to open their meeting when the sophomores made a charge against the door of the hall. At this point Justice Harlan appeared, and in a commanding voice ordered the combat to cease. The sophomores paused for a moment, but were evidently not disposed to obey the order, for they immediately began another assault, then Judge Harlan took part in the fray. He reached over the heads of the assaulting party and seizing the leader of the force by the collar, dragged him from the pile. The jurist then directed the second year men to disperse, and they did so.

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. One box, at all dealers or EDWARDS, BATES & Co., Toronto.

MINISTER OF MILITIA.

Says Boston Despatch Exaggerated His Remarks.

Montreal, Oct. 23.—Hon. Dr. Borden arrived in town today from Boston. He denied the Boston interview about the fast Atlantic line and said he only talked generally on the subject. What he said had been exaggerated.

BAD BANDSMAN.

Stole Money and Tried to Flee to Europe

Montreal, Oct. 23.—Frank O'Connor, who up to two weeks ago was sergeant of a band of the United States regiment stationed at Fort Riley, was arrested this morning on the steamship Lake Ontario just as he was about to sail for Liverpool. O'Connor is charged with "stealing \$500 from the band. He consented to return without extradition proceedings.

RAILWAY MERGER.

Hearing of Suit Will Go On In New York.

St. Paul, Minn., Oct. 23.—The hearing in the city of Special Examiner F. G. Jagersoll, appointed to take testimony in the suit of the United States against the Northern Securities Company, the Great Northern Railway Company and others, under the Sherman Anti-Trust law, was concluded late this afternoon, and adjournment was taken to New York for November 10, when the examination of several witnesses who are residing in or about that city will begin.

ROCKEFELLER'S OFFERING.

Presents Half a Million to College With Conditions.

New York, Oct. 23.—At the meeting today of the teachers and college trustees of the Columbia University, it was announced that John D. Rockefeller had offered to give \$500,000 to the college, provided that the college could raise \$100,000 to pay off the debt of the institution and \$250,000 in addition to that amount. The announcement was also made that Mr. Rockefeller had made a gift of \$100,000 to the university for the preservation of himself, his family and household from the fire which recently destroyed his country home at Pocantico Hills.

COSTLY BLACK DUCK.

Quebec Club Fined For Serving Out of Season.

Quebec, Oct. 23.—The Garrison club was today fined \$20 and costs in the police court for serving game out of season. Black ducks were served at a dinner tendered Rear-Admiral Douglas on September 2. The open season does not begin until the 15th.

Maxime Fortin was acquitted in the Court of Sessions today on the charge of manslaughter. Last August Fortin was sitting with a female friend on the Cove fields when he was attacked by Alfred Beauchamp with a knife. Fortin drew a knife and during the fight severed an artery in Beauchamp's leg. Beauchamp bled to death. The jury in the first trial disagreed.

"THE TOWN IS QUIET."

After the Mob Had Lynched the Negro.

Tallahassee, Fla., Oct. 23.—Ben Brown, a negro, charged with having attempted to criminally assault Mrs. Henry Dees, was taken from the county jail here to the city of Tallahassee and lynched. The mob carried the negro to the scene of his crime and hanged him to the lower trestle work of a bridge over a creek.

Groups had been ordered from Atlanta, but did not arrive until an hour and a half after the negro had been hanged. Brown was captured a few hours after his attempted escape from the jail. A mob soon gathered and marched to the jail and demanded the negro.

Mayor Hutchinson wired Governor Chandler for troops, and in the meanwhile a detachment of 200 men and a mob soon gathered and marched to the jail and demanded the negro. The town is quiet tonight.

YUKON SEASON CLOSES.

Gold Exports Aggregate Eleven Millions and a Half.

Dawson, Oct. 23.—Today marks the pivotal point in the Yukon season. Navigation is practically suspended, shipping is at an end and the great bulk shipments of commercial importance were made yesterday. Extensive winter operations are beginning on all the creeks of this section.

The Yukon river in running full of thin ice from Selkirk to Dawson. All freight shipments may possibly get here this season with the probable exception of a few tons on the steamer "Huron," which has left White Horse. Four steamers now en route from White Horse are expected in three days and most likely will be the last to arrive.

The last White Pass steamer left Dawson yesterday with 100 passengers, including many big operators and White Pass & Yukon government officials, who have left for the winter season's work. Two hundred steamboat men will start south this week. All the White Pass & Yukon steamers will winter at White Horse. Most of the Independents will tie up at Dawson and then await such money for medicine, was only disappointed with the results. He now recommends Dr. Chase's Kidney Pills for his ailment, because it cured him of his troublesome ailment. You can be cured of constipation by this treatment. One pill a dose, 25 cents a box.

"PURITY" AND "ALONE"

The above are the titles of two most delightful pictures which are being sent to subscribers of the Family Herald and Weekly Star, of Montreal, this season. It is difficult to say which will prove most popular. "Purity" is a beautiful piece of color work. It is a copy of a painting that has attracted a great deal of attention in Europe.

"Alone" depicts a picture of a different taste, and is also sure to be popular. The two pictures are immense value with that great family weekly at one dollar per year, and when they begin to scatter around the country and the north there is sure to be a greater rush than ever for that paper.

VENEZUELA REBELLION.

President Castro Makes Attack Near San Matias.

Willemstad, Island of Curacao, Oct. 23.—News has reached here that General Velutini, leader of the Venezuelan revolution, has been ordered to attack the island of Curacao, which has been besieged by the rebels for the last two days.

The French cruiser Suetich has left Venezuela waters, and the French cruiser D'Estrees is at present at Curacao.

Carlo Castro, brother of the President of Venezuela, was seriously wounded in the recent fight at La Victoria. His leg has been amputated.

La Victoria, Venezuela, Oct. 23.—Forces under President Castro attacked the revolutionaries yesterday in the positions they occupied near San Matias. President Castro hopes to surround the rebels.

JEFFERSON BEATEN.

Jack O'Brien Too Much for Him.

Philadelphia, Pa., Oct. 23.—Philadelphia Jack O'Brien defeated Jim Jeffers at California, in a six-round contest at the Broadway A. C. tonight. 4-11.

ARGENTUILL CANDIDATES.

Thomas Christie Will Oppose George Perley.

Lachute, Que., Oct. 23.—The Liberals of Argenteuil today selected Thomas Christie, son of the late member, as a candidate for the vacancy in the House of Commons. George Perley is the Conservative candidate.

LOOKS LIKE MURDER.

Man Found on Montreal Street With Throat Cut.

Montreal, Oct. 23.—(Special)—Thomas Wright was found on the street with a serious cut. He had engaged passage on the steamship Parisian for himself and two children, and intended to sail last Saturday morning. It is supposed to have been a case of highway men. Wright is supposed to have come from Toronto.

DECLINED TO GO.

Legation Ladies Refused Princess's Invitation.

Pekin, Oct. 22.—The imperial Princess Yung Shou, the Dowager Empress's adopted daughter, gave a tiffin today to the legation ladies. The English women declined to accept the invitation, owing to the strained relations existing between the British minister and the court as the result of the murders of two British missionaries in Honan province.

CANADIAN CATTLE.

Effort to Have Embargo in England Removed.

Toronto, Oct. 23.—The Telegram's London cable says: "A large gathering of influential persons representing agricultural interests, dealers, traders, corporations, societies and dock boards met today and urged the removal of the restrictions placed upon the importation of Canadian live cattle into Great Britain. The members promised to use every effort to secure the removal of the embargo. Every member urged that Canada be treated as a part of the Empire and not as a foreign nation."

MISSION WORK.

Large Amount Raised at Methodist Conference.

Cleveland, O., Oct. 23.—More than a quarter of a million dollars was raised by the Methodist conference held here today for the advancement of mission work. The conference was held at the S. S. Ford, Mayor of New York City, and John Mott, leader of the student movement throughout the world, were in the audience. Bishop Thoburn then arose and speaking from the chair, said he was authorized to announce to the conference that a subscription of \$100,000 had been pledged by a gentleman whose name he would not disclose.

BOER GENERALS.

Report That They Are Having Quarrels.

London, Oct. 23.—Generals Botha, Dewet and Delarey have returned to London. Dewet expects to sail for South Africa, on account of family matters, on November 1.

Generals Dewet, Botha and Delarey were to be special guests at a dinner given to-night by Lady Cook, but they failed to attend. It was reported that the quarrels among the Boer Generals and it is supposed that on this account they declined to go together to the dinner.

It is reported that General Dewet wants the tour of the Generals including the trip to the Cape, but the Boer Generals are all three are disappointed at the financial results so far obtained. General Botha, General Delarey and General Dewet have remained neutral in the matter. General Dewet's presence is considered necessary for the success of the tour, and he persists in returning to South Africa, it is not unlikely that the tour will be abandoned.

THE LIQUOR HABIT.

Rev. J. A. McCallen's Lecture.

On the occasion of a lecture delivered before a large and appreciative audience in Windsor Hall, Montreal, in honor of the Father Matthew anniversary, Rev. J. A. McCallen, S.S., of St. Patrick's Church, and President of St. Patrick's Total Abstinence Society, gave the following grand tribute to the value of Mr. Dixon's new discovery for the cure of alcohol and drug habits.

Referring to the special crave engendered by the inordinate use of intoxicants, he said: "When such a crave manifests itself there is no escape unless by a miracle of grace, or by some such thing as the cure of such a habit, which the papers have spoken so much lately, and if I am to judge of the value of the Dixon remedy by the cures which it has effected, and my own eyes, I must come to the conclusion that what I have longed for for twenty years to see at last has been found by that gentleman."

Full particulars regarding this medicine can be obtained by writing to Mr. Dixon, No. 81 Wilkes Street, Toronto, Canada.

Let me show you our great "North American" electric fan.

"You ought to call it 'South American.'"

"It makes so many revolutions."—Chicago Daily News.

THE POLICEMAN'S EVIDENCE.

Policeman Peter Morris, Toronto, says that for years he was troubled with habit and could not get on his feet without money for medicine, was only disappointed with the results. He now recommends Dr. Chase's Kidney Pills for his ailment, because it cured him of his troublesome ailment. You can be cured of constipation by this treatment. One pill a dose, 25 cents a box.

AS OTHERS SEE US.

English Educationalist Appreciates Canada's Educational and Social Conditions.

P. S. G. Probert, one of the English headmasters who visited Canada recently, in writing to a friend, has the following good words to say of Canada: "I saw first-hand the most favorable impression of Canada as a country, and the social conditions are higher than in England; they have a splendid system of education, and no surplus or waste population, while the room for expansion is unlimited; beyond this, it is a country in which there is practically no drinking, and what this means can only be understood by those who see the people."

SUNLIGHT SOAP REDUCES EXPENSE.

less than \$1.

\$25.00 REWARD

Will be paid for such information as
will lead to the conviction of anyone
stealing the Colonist newspaper from
the door of a subscriber.

ADVERSE CONDITIONS.

There are three adverse conditions af-
fecting the business situation in the United
States which have not yet worked out their
full effect upon prices, whatever
that effect is going to be. The first of
these is the fact that European bankers
are beginning to show distrust of the
speculative position in the United States
and to tighten their purse strings. The
overdraft of the United States upon the
European money market is mounting up
by leaps and bounds. At the same time
the means of immediate repayment are
diminishing. Last year at this time de-
posits in the banks exceeded loans by
\$70,000,000. Today loans exceed deposits
by \$2,700,000. Very evidently such a
condition makes it difficult for the banks
to meet any sudden demand from their
foreign creditors, and very naturally the
foreign creditor is quite alive to that fact.
Another adverse condition is the declin-
ing profits made in industry. The turn-
over continues to be enormous and the
gross earnings are greater than ever they
were before. But expenses have in-
creased and are still increasing so that
the net profits are diminishing, while
the amount of capital upon which divid-
ends have to be earned to maintain the
market in securities has been inflated be-
yond all reason. The third adverse con-
dition is the fact that exports are dim-
inishing and imports are increasing, a cir-
cumstance which tends to accentuate
financial stringency. Some months ago
we pointed out that a large favorable
balance of trade represented by money
simply tended to raise prices all around,
and that high prices tended to discourage
exports and encourage imports. Indeed,
this was no discovery of ours. It is one
of the basic laws of exchange, whose
operation has been studied in countless
different instances. We ventured to pre-
dict that the check then visible in the
export trade of the United States would
become more marked as time went on
and prices continued to rise. During
the last nine months the exports of the
United States were \$182,000,000 less
than during the corresponding period of
last year. While the increase of imports
during the month of September
alone, as compared with the month of
September last year, was \$21,000,000.
It is curious to observe that this dim-
inution of exports has taken place in com-
modities as to which it was generally
supposed the foreign market was largely
dependent upon the United States, such
as cotton, beef and hog products, while
the foreign trade of the United States in
manufactured articles has almost entirely
disappeared. In wheat the effect has
been to somewhat raise the price, but this
again has greatly stimulated the
growth of wheat in other countries, not-
ably Canada, where its cost of production
measured in money has not reached
such abnormal proportions. The ulti-
mate effect of this condition of affairs
for the United States is not at all easy
to forecast. Just through what condi-
tions of crisis a readjustment will be ar-
rived at, it would require a bold prophet
to predict. But there is one more im-
mediate consequence which is already vis-
ible. One feature of American finance
of recent years has been the invasion of

foreign countries, notably Great Britain.
The most remarkable instances possibly
have been the operations of Mr. Yerkes
in London, the attack upon the tobacco
trade of Great Britain by the Tobacco
Trust and the Steamship Combine of Mr.
J. Pierpont Morgan. Mr. Yerkes has
been almost altogether financed with
English money, so that his case
is not in point. The Tobacco
Trust has been very glad to
come to terms and give up the attempt
to control Great Britain, while as for Mr.
Morgan, he has not yet made his pay-
ments. A short time ago \$10,000,000
was called up in New York on account
of the first payment. To call up \$10-
000,000 in New York at the present time
is simply to extract that amount from
European bankers. The question then
for Mr. Morgan, which the future alone
can answer, is whether his control of the
Atlantic trade will eventually prove an
asset sufficient to cover the expense of
buying the goodwill of steamship lines
at fancy figures.

If we are to judge from the following
extract from the Daily Telegraph, the
libations of champagne which greeted
the British press representatives in Can-
ada were after all not wasted:

When we think of Canada as a sub-
continent which is frost-locked and snow-
bound in its characteristic moods, we
commit the crudest of elementary errors.
With its magnificent network of deep-
water communications, stretching for
well-nigh two thousand miles from the
Atlantic into the heart of the land, with
its forests and fisheries, mines and or-
chards; above all, with its vast tracts of
virgin soil, which will rapidly become one
of the richest wheat-growing regions in
the globe, the Dominion is a country of
which even the average Briton does not
remotely conceive the possibilities. The
United States themselves will still re-
main for some decades the chief com-
producing section of the globe, but it is
far from certain that they will remain
the chief export-producing section. As the
industrial republic requires a larger and
larger proportion of her crop for the use
of the manufacturing millions, Canada
will be shipping the increasing surplus
of her supplies to all the deficiency. The
insistence of the American farmers, who
are moving to the Dominion in notice-
able numbers, is not astray. Whether
for emigrants from the States or for
those from Great Britain who now seek
their fortunes under the Stars and
Stripes, Canada will be recognized more
and more as the second home of the race.

A step has been taken in the direc-
tion of procuring a direct Canadian
news service from Great Britain. The
Montreal Herald of 12th October reports:
A meeting of newspaper proprietors
was held in the Board of Trade rooms
last week for the purpose of discussing
the possibility of securing a direct news
service from England. No definite ac-
tion was taken by the meeting excepting
that it was decided to meet again some
time next week. Those present at the
meeting were unanimously of the opinion
that it was time Canadian newspapers
had a news service of their own. For a
long time the American news service
which is supplied to Canada has not been
satisfactory. The news is written and
colored to suit the taste of the public
on the other side of the line, and is not
always very trustworthy. The difficul-
ties in the way of obtaining a separate
service for Canada are many, but it is
hoped that they will be overcome. It
is probable that some definite step will
be taken when the newspaper proprietors
meet again next week.

It is with mingled feelings of regret
and satisfaction that we regard the se-
verance of Mr. George Denny's con-
nection with the Colonist newspaper. We
regret that the Colonist has lost so ef-
ficient and loyal and zealous a city edi-
tor; at the same time it is a matter for
congratulation that he has improved his
position and prospects in accepting the
post he now holds, in which his many
friends in Victoria will join with us in
wishing him every success.

A large portion of the United States
has become so dependent upon raw ma-
terials produced in Canada as to cause
a dread of reprisals on Canada's part
aimed at cutting off the supply. This
feeling is coming out in the press and
from public bodies from Minnesota to
Boston.

The bank clearings at Winnipeg last
week were \$5,398,947, and balances,
\$942,256; for the corresponding week
last year respectively, \$3,399,468, and
\$583,847, and the year before \$2,284-
910 and \$324,642. The business done
in Winnipeg has tripled in two years.

The combined deficits this year of the
six Australian states amount to £2,000-
000. They are being forced into adopt-
ing policies of economy.

Creation of New Mining Divisions

Clayoquot and Quatsino on the
West Coast of Vancouver
Island.

Other Announcements in Last
Issue of British Colum-
bia Gazette.

Yesterday's issue of the British Colum-
bia Gazette contains the following ap-
pointments, and notices:
Edward E. Potts, of Quatsino, to be
mining recorder for the Quatsino mining
division, to reside and usually perform
his duties at Quatsino.

William John Goepel, of the city of
Nelson, inspector of offices, to perform
the duties of the undermentioned offices
at the said city, viz: Mr. John A. Tur-
ner, resigned, namely: Government
agent, assistant commissioner of lands
and works, gold commissioner, and
Court of Revision and Appeal under the
Assessment Act.

The following new mining divisions
are created:
Clayoquot Mining Division—Commenc-
ing at Amphitrite Point; thence north-
erly along height of land separating
drainage area of those streams empty-
ing into Pacific ocean north of such
height, from drainage area of those
streams emptying into Barkley Sound,
following each height of land to a point
where it intersects the height of land
separating drainage area of those streams
emptying into Pacific ocean, on west
from drainage area of streams emptying
into Straits of Georgia on east; thence
northwesterly along such divide to a
point west of Commem (or Woss) Lake;
thence southwesterly on the height of
land separating the streams draining in-
to Kyquoot Sound on the north from
those draining into Esperanza Inlet on
the south to Tachou Point; thence by

Pacific ocean, including all Coast islands,
to point of commencement.
Quatsino Mining Division—Commenc-
ing at Tachou Point; thence north-
erly on the height of land separating the
streams draining into Kyquoot Sound on
the north from those draining into Es-
peranza Inlet on the south to a point
west of Commem (or Woss) Lake; thence
northwesterly on the height of land sepa-
rating the drainage area of those
streams emptying into the Pacific ocean
on the west from the drainage area of
those streams emptying into the Straits
of Georgia on the northeast to Cape
Scott; thence by Pacific ocean, including
all Coast islands, to point of commence-
ment.

Certificates of incorporation have been
issued as follows:

Moving Sale For Three Weeks Commences Today!

In three weeks we move into the new part of the store so as to enable
the carpenters to start on our present quarters. In the meantime we
will reduce the stock as much as possible. To get room for our large
stock of Clothing and Furnishings will be a difficult problem. To help
this out we are going to reduce our stock in this department alone at
least \$12,000.00 during the next three weeks. For the next three weeks
liberal reductions will be made on many lines of goods all over the store.
Don't misunderstand us. Everything in the store will not be reduced,
but many lines in every department will be cleared out. We make a
start on Men's Clothing and Furnishings, TODAY

Four Hundred and Thirty-One Men's Suits, average value \$10.00 \$5.00

Will Discuss
Sewers Tonight

Mayor, Aldermen and Civic
Officials Meet This Evening
at City Hall.

Charge of Ineffectiveness of
Flushing System By Sanitary
Officer to be Taken Up.

What will undoubtedly prove to be a
very interesting and important meeting,
will be the private conference this evening
of the City Council on the subject
of sewerage matters generally. The
meeting, which will be a private one,
from which the reporters will be ex-
cluded, was called primarily on the re-
quest of Ald. Barnard, so that some
understanding might be arrived at
among the members of the civic body
on the question of improvements in the
sewerage system, preparatory to united
action in open council upon Ald. Bar-
nard's by-law.

But what is likely to make the meet-
ing a more than usually interesting one
is the debate which will necessarily come
up, on the important letter forwarded to
the council at the regular weekly meet-
ing on Monday evening last, by Sanitary
Officer Wilson.

The latter, speaking as one responsible
for the proper management of the main
sewers of the city, forwarded a protest
against the method adopted for flushing
the same. He said that at the time
the change of method was made, he was
of the opinion that a great mistake was
made; but as he was not consulted in
the matter he had made no protest, pre-
ferring to give a trial to the new sys-
tem. Had he, however, been asked to
give any advice, he would have recom-
mended that before any change was
made, the opinion of a first class engineer
should have been obtained, in view of
the fact that the system had heretofore
worked satisfactorily.

Mr. Wilson mentioned in his letter to
the council, which it was deemed im-
expedient to publish in full before being
discussed at the private conference ar-
ranged for this evening, that while he
thoroughly understood the management
and building of sewers, he did not care to
shoulder the responsibility for their con-
dition when a systematic system of flush-
ing is done away with to go back to a
method which has been condemned years
ago.

Mr. Wilson further stated that the
matter gave a great deal of extra work,
and caused him "great anxiety." He
regretted having to state that the sewers
were not now in a sanitary condition.
He had tried during the summer to get
enough water for his flush boards to do
some good.

The sanitary officer recommends a 2½
or 3-inch from the water main on the
long dead ends, and a 3-inch vent to
be installed on the nearest pole or
house to carry off the gas.

Regarding the health of the city, Mr.
Wilson stated that where proper sewerage
facilities prevail there is no sickness.
There has only been six cases in the pe-
riod of three years, the latter being due
in his opinion "to the existence of box
drains on the same level as the street."
He also recommended that in the case
where the sewer is laid down on a
street, all box drains on the same street
be taken up as soon as possible.

The association of the city also directed
attention to the condition of the surface
drains, though they were not under his
direct supervision. He said they were
now in a "dirt condition," and ought
to be flushed out thoroughly. There
were, he said, six cases of cholera
at present which could be traced to the
effect of noxious gases flowing from
dead ends of surface drains. These
cases, as well as those for three years
back, could nearly all be traced to the
same source.

The council, at its private session this
evening, will deal with this matter and
the expediency of adopting Ald. Bar-
nard's by-law.

Edward Molun, who is the father of
the system of sewerage which Victoria
enjoys, is understood to be much
opposed to the present method of flush-
ing, as it is a wrongful departure from
the original intent of the plan.

ORDER YOUR
GROCERIES EARLY

By-Law For Early Closing of
Grocers Comes Into Force
Today.

Some weeks ago the Retail Clerk's
association of the city approached the
City Council with a request that the
provisions of the Shops Regulation Act,
1900, should be enforced with regard
to the closing of the city. The act
provides that the hours of closing of
any shops or stores doing a retail busi-
ness within the municipality upon pre-
sentation of a petition of a majority
of the persons engaged in the particu-
lar trade effected by such petition.

A majority of the grocers of the city
having signed the necessary petition and
order to the council, a by-law was
passed which comes into effect to-
day. Citizens will therefore take notice
that on and after today they must buy
their groceries within certain hours
of the day, and the hitherto
overworked grocers will be re-
lieved from many unnecessary hours of
attendance in waiting for thoughtless or
tardy customers.

The text of the by-law is as follows:
1. At the expiration of ten days from
the day of the passing of this by-law
all shops of the class of Retail Grocers
within the Municipality of the City of Vic-
toria shall be closed on each day of the
week between six o'clock in the evening
and five o'clock in the morning, with the
following exceptions: On Satur-
days, and during the last eighteen days in
December, and during the last five days
preceding the following days, namely: New
Year's Day, Good Friday, the 24th day of
May, Dominion Day, Labor Day, and
Thanksgiving Day, and other public hol-
idays.

2. No Retail Grocer shall keep open his
shops during the hours prohibited by the
provisions of this by-law.

3. This by-law shall take effect on the
fourth day succeeding the day of the final
passing of this by-law.

4. This by-law shall be published in
the "Morning Star" and a copy of the said
by-law being advertised at the expense of
the applicants in three consecutive issues
of two daily papers published in Victoria.

This by-law may be amended, modified
or repealed by the City Council on the 6th
day of October, 1902.

Reconsidered, adopted and finally passed
the Council this 23rd day of October, 1902.
(L.S.) CHAS. HAYWARD, Mayor.

TO CELEBRATE
LAYING OF CABLE

Tourist Association to Move
in the Matter of Honoring
the Event.

It is anticipated that the laying of the
Pacific cable, which will give Canada
direct communication with Australia
and the Antipodean colonies, will have
been completed on or about November
5 next.

Believing that the consummation of a
project of such tremendous importance
should be celebrated in some way, the
Tourist Association has a movement in
hand looking to the proper recognition of the
great event.

Those who have been considering the
matter are of the opinion that the ar-
rangements for the occasion might ap-
propriately take the form of summoning a
meeting on the day on which communi-
cation would be opened with Australia, at
which would assemble representatives of
the various public bodies in Victoria,
and of the army and navy.

The matter will be taken up actively
at once by officers of the Tourist As-
sociation with the idea that such an
event shall be arranged, so that con-
gratulatory messages may be passed be-
tween the capitals of British Columbia
and Australia, appropriate speeches in-
terchangeable, and such other endeavors
made to properly mark so important an
event in imperial progress.

GOES TO NEW YORK.

Mr. George Denny, appointed Associate
Editor of Associated Press.

Mr. George Denny, for many years
associated with the newspaper "Life" of
this city, and for some years past City
Editor of the Colonist, has resigned that
position to accept the post of Associate
editor of the Associated Press at New
York. He was the Victoria agent of
the great American news-gathering in-
stitution for some years, and his good
work in that position has resulted in his
being transferred to the Eastern
metropolis. Mr. Denny is the second
Victoria newspaperman to secure a
prominent position in the Associated
Press, Mr. J. Egan, who preceded
Mr. Denny as City Editor of the Times,
which position the latter held before
joining the Colonist staff, being now the
agent of the Associated Press at Manila,
covering the whole Far Eastern territory
from that point.

Mr. George Denny began his news-
paper career in the Colonist office. He
came to the Colonist in the latter
eighties, at the foot of the ladder—as an
apprentice in the news room, and learned
the printing trade. He afterwards
began reporting for the Colonist. Then
he went to the Times and did good work
as reporter for that paper, succeeding
Mr. Egan, who went to the San Fran-
cisco Chronicle, as city editor of the
Victoria evening paper. After serving
for some years on the staff of the Times,
Mr. Denny came back to the Colonist
and took the position of City Editor,
which he held until his resignation ar-
rived yesterday. He went to New York
a few weeks ago, and has decided to
accept the good offer that has been made
to him in that city.

Mr. Denny was recognized in the Pacific
Northwest as a capable newspaper
man; he was most popular in Victoria
both among his fellow workers on the
press and among those with whom his
duties brought him in touch. Many
friends in Victoria will follow his career
with interest.

A LODGE
PRESENTATION

Andrew Rusta of the K. of P.
Honored By His Organi-
zation.

At the regular session of Victoria
Lodge, No. 17, Knights of Pythias, held
yesterday evening at the new hall, cor-
ner of Douglas and Pandora streets, a
very interesting and notable event in
connection with the order occurred.

Bro. Andrew Rusta was presented
with a beautifully engraved gold locket,
the workmanship of A. B. Oldershaw,
a gift of the lodge, to mark his ap-
pointment to the position of Master of
the lodge, and of the esteem in which Bro. Rusta
is held by its members. The locket was
suitably inscribed with the words mark-
ing the presentation, with the regulation
triangle and motto of the order.

The presentation was made by J. J.
Randolph, D. G. C., who, though called
upon unexpectedly to perform this pleas-
ing duty, undertook it in his usual jolly
and pleasing manner.

Bro. A. Rusta, who was honored in
such a marked manner, is a past grand
representative of Victoria Lodge, No. 17,
having been elected to represent his lodge
at its first session, held in 1893. He has
occupied almost every office in the lodge
and is "still in harness"—being the mas-
ter of the exchange—to which office he
was elected after the retirement of Bro.
J. T. Pearce.

By his fellow-members Mr. Rusta is
termed the "Big Brother" of his lodge,
and is credited with less absent marks
than any other officer. He is an ener-
getic member of the Knight Rank team,
and can at a moment's notice fill any
part.

October 17, 1902.

Clearance Sale of Sporting Goods

In order to wind up the Estate of the late Henry Short, the business carried on under the name of Henry Short & Sons, at 72 Douglas Street, will be on Tuesday, the 21st instant, and all goods will be offered for sale at cost.

This sale will afford spectators an excellent chance to stock up at a small outlay.

DRAKE, JACKSON & HELMCKEN,
Solicitors for Executors.

NOTICE TO CONTRACTORS.

School, Beaver Creek, Alberni.

Sealed tenders, indorsed "Tender for School, Beaver Creek," will be received by the Lands and Works Department, Victoria, on the 10th September, 1902, for the erection and completion of a one-room frame school house at Beaver Creek, Alberni.

Plans, specifications, forms of tender and contract may be seen on and after the 28th August, 1902, at the Lands and Works Department Agency, Alberni, and at the Lands and Works Department, Victoria.

Tenders will not be considered unless made upon the printed forms supplied for the purpose, and the agreement to execute a bond appended to the form of tender in this regard. The Contractor himself and two other responsible residents of the province in the penal sum of \$250, for the faithful performance of the work.

The lowest or any tender not necessarily accepted.

W. S. GORE,

W. T. Hardaker, The Auctioneer,

REPLY TO DOUKHOBORS

Sir Henri Joly's Emphatic Answer to the Doukhorob Petition.

Acting on the advice of his ministers, Sir Henri Joly de Lotbiniere, lieutenant-governor, has sent the following reply to the Doukhorob leaders, who presented him with a petition praying that their people might be granted the right of settlement in the province. The full text of the petition was published in yesterday's Colonist:

The following is a translation of the reply sent by His Honor the Lieutenant-Governor to the petition of the Doukhorob for permission to emigrate to British Columbia.

Messrs. Tiku Pondmann, et al, Signers of a Petition of the Christian Community (Doukhorob), Assiniboia:

Sirs: I have duly submitted your petition to the provincial government.

The government, while ready to welcome with pleasure desirable immigrants, refuse absolutely to enter into negotiations with a body of immigrants who at the outset declare that they will not conform with the laws of the country.

I am, sirs, your servant,
HENRI J. DE LOTBINIERE,
Lieutenant-Governor.

Muskoka Arrives From Antwerp

Cement Ship Passed Up to Vancouver Yesterday Morning.

Glenogle Sails For the Orient—Riojun Maru Due—Danube Goes North.

The British ship Muskoka, which is regarded as one of the fastest ships afloat, passed up to Vancouver yesterday morning from Antwerp with a cargo of cement for use in the New Westminster bridge. The Muskoka called at the William Head quarantine station about 8 a.m., in tow of the tug Tatoshi, which took her on to Vancouver when the vessel passed inspection. As a strange coincidence, the first report of the vessel since she left the Belgian port was issued Wednesday and published coincident with her arrival in the Straits. The Muskoka has made the passage from the point where she was spoken, about thirteen hundred miles from port, in a direct line, in very fast time, for it was but 12 days prior to her arrival that the Clan Robertson sighted her in 30 N. and 130 W. The passage from Antwerp to Vancouver occupied a long passage for a vessel with a reputation such as that earned by the big British ship. It was expected that she would break the record for this run, and this port, now held by the British ship Paritan, of which Capt. Amesbury, of the Victoria and Vancouver stevedoring company, was then master, his vessel having left from Liverpool on September 10, 1902. The Muskoka had a race from Portland to the United Kingdom two years ago with the German training ship Charlotte, which was then the fastest ship in the world. The British vessel won, and the German ship was captured.

The Tyee, which towed in the Muskoka, was to have taken the ship to Seattle, but on Wednesday, when the Glenogle was towed out by the Straits, she ran into a living gale, and turned back to Clallam Bay. She left that point yesterday morning in tow of the tug Tatoshi, which took her on to Portland. The storm which caused the Glenogle to return is the second of the winter gales, the first blowing on September 26. This gale, which had its centre off the Vancouver Island coast, was from the southeast, the wind blowing 30 miles an hour.

The bank which arrived some days ago from Caldera with a charter to load salmon on the Fraser river, was towed to Stevenson yesterday morning by the tug Lorne, which will take the second of the salmon fleet to sea this morning. The Cambrian Hills is laden on the river, and will depart for Liverpool today. The Marlon Woodside was the first of the salmon fleet to have passed out on October 6. The Aberfoyle and Pass of Killarney are now loading on the river, and it is reported that after loading part cargo of which ship the Celtic Chief was towed to the Fraser river. A sister ship of the Celtic Chief was chartered to load salmon on the Fraser river four years ago, but was wrecked on the coast. Together with the British ship Carpent, she sailed from the Orient, and neither the Carradoc or Celtic Bird were ever heard of again. Their fate having been that of many other vessels. They were posted as missing and none knew their end. Wreckage was found on the west coast of Queen Charlotte islands about that time, and was believed to have come from these vessels.

The German ship Carl, which was here with cargo in the morning, passed out on Wednesday to the Sound, reports having encountered two fierce typhoons. The Carl sailed from Tsingtau on August 28, and met the first typhoon on September 3 in the Yellow Sea. On September 7 another heavy gale was experienced east of the Ryukyu islands.

NOTICE TO MARINERS.

Instructions Regarding Cable Station at Bamfield Creek.

Ottawa, Ont., Oct. 23.—(Special).—The Department of Marine has issued a notice to mariners stating that the Pacific cable board having built a terminus station on the summit of a point between Grappler creek and Bamfield creek, Barkley Sound, the vessel entering the Eastern channel and Bamfield creeks are warned not to anchor where there is danger of fouling the cable. In Bamfield creek, if they anchor anywhere near the Miller peninsula shore, or south of the station building, they will be clear of the cable. A pile wharf, for accommodation of the cable station has been built at least 15 feet of water at the outer end. A temporary tide gauge is being established by the department attached to this wharf. Mariners using the wharf are requested to take special care to prevent the gauge from being injured by warping lines or freight.

MARINE NOTES.

Steamer City of Topeka sailed yesterday for Skagway. She had a small passenger list.

Steamer Danube sailed North last night. She had a good cargo, including heavy lumber shipments for Quatsino Sound, at which point she will call en route.

WANT LIGHT REMOVED.

From Beren's Island to Macaulay Point.

A petition is being largely signed by visiting mariners, masters of the incoming Oriental liners, and of other deep draught vessels, to be forwarded to the Department of Marine and Fisheries asking for the removal of the light-house on Beren's Island, in the mouth of Victoria harbor, to another point further out, on either Macaulay Point or Harrison island, an isle this side of Macaulay Point. The petitioners are of the opinion that the needs of the shipping business would be better served if the light-house was removed, as in its present position the vessels with deep draught have to come close to the shore, in the shallow water before picking up the sound of the fog alarm in misty weather. In foggy weather this fact might result in the stranding of one of the large liners drawing 18 feet and over, were not unusual care observed on the part of the pilots docking them, and the pilots are also asking for the removal of the light.

TWO NEW STEERNWHEELERS.

Pacific Coast S.S. Co. Building for Puget Sound Trade.

The Pacific Coast S.S. Co. is to take a hand in the transportation business on Puget Sound. A sternwheel steamer is to be constructed for the company at Portland for the Sound trade, presumably between Seattle and Victoria. The new steamer will cost about \$100,000. The steamer will be 225 feet long. While she is intended to carry considerable freight, special attention will be paid to cabin accommodation.

BEER "on Lager."

Beer stored and maturing till mellowed and ripened

into wholesomeness is "on lager." All Anheuser-Busch beers are thus "lagered" until perfect for use.

ETC., AT 58 BROAD ST.

Tuesday, Oct. 28, 2 P.M.

W. JONES, Dom. Govt. Auctioneer.

Why, in two years now he has saved up nearly \$150.—Detroit Free Press.

Twenty cases new Swiss Rib Neckwear, reduced to 75c a garment, worth \$1.25. B. Williams & Co.

Lamps from the best factories, fitted with burners that remain in good order, and give abundant satisfaction, are sold by Weiler Bros. The best are the cheapest.

OVERCOATS

These cool, Autumn mornings and evenings require a Fall Overcoat, if you would feel comfortable and retain your health. Wear your light overcoat; get one if you haven't it. A top coat is never out of season.

Three lengths: Long, short, middling—at the knee, above, or below. The long or the short are what every young man wants. Middle-aged men want the medium length. It is an art to have the "latest" and yet be right.

We know the art and young men know that we know it. That's why smart dressers clothe themselves here. Coverts, Cheviots, and unfinished Worsteds are the favorite fabrics.

Top coats at \$12, \$15, \$20 and \$25, and still these prices mean nothing unless you see the coats.

FIT-REFORM

73 Government St.

Selling What Pleases The Big B Cigar

They'll Sell Themselves. Telephone B-779. H. Behnsen & Co.

IMPORTANT NOTICE

CONCERNING OUR Little Red Box

We have decided to add ten dollars to the amount already placed in our Little Red Box and instead of giving three prizes of \$20, \$10 and \$5, as at first intended, we will give three equal prizes of \$15 each. So that

The first key to unlock the box gets. \$15.00
The second key to unlock the box gets. \$15.00
The third key to unlock the box gets. \$15.00

We do this at the request of a number of our customers, and also to prevent the rush that would have been unavoidable had we given the prizes as first intended.

We believe this will be more satisfactory to all our customers as no matter when you bring your keys your chance will be just as good as if you were the first to try the box.

You can try your keys on Wednesday, November 5th, or at any time within twenty days after that date.

Only a few keys left, the lucky ones may not be gone yet. Big Bargains in Men's and Boys Suits till the end of the month.

McCandless Bros.,

57 Johnson Street.
